

Project Update - Week of 22-Mar-2021 to 27-Mar-2021

Site Activity

1. On-going bulk excavation to depth of third row tiebacks, shaving of caisson walls, & associated daily exporting
2. Reconfiguration of access ramp leading into excavation as required for tieback works
3. Positioning of drill rig & crane into excavation in preparation of structural caisson works

What Can Neighbor's Expect?

1. Per the Government of Ontario Provincial Regulation in effect until 07-October-2021, noise by-laws in connection to construction activity currently permits said activity seven days a week from 6:00am to 10:00pm (including statutory holidays). Planned site activity/work hours for week of 22-March-2021 are as follows:
7:00am to 5:00pm Monday to Friday, & 7:00am to 3:00pm Saturday
2. Drill rig & tieback machine to be delivered on float Monday 22-March-2021. Neighbors may expect a large delivery/construction truck with float to maneuver through mall parking lot/community centre laneway
3. Typical construction noise & dust may be observed around construction grounds due to vehicular movement in and out of site everyday (hauling bulk excavation, deliveries). Efforts are being made to mitigate & periodically clean the site to minimize the migration of said dust
4. Noise emission from excavation area due to shaving of caisson foundation wall by excavators, as well as drilling of shoring tiebacks
